Tel: 09138240485, 09159710233

SUMMARY

Frontend Developer with 2 years of experience building responsive and user-friendly web applications. Skilled in HTML, CSS, JavaScript, Bootstrap, and React. Experienced in translating UI designs into functional websites and deploying projects using modern development workflows. Passionate about building clean, scalable, and accessible web interfaces.

My long term goal is to leverage technology and creativity to solve real world problems, contribute to the growth of the tech industry, and make a positive impact on society.
